### **Why we are?**

No Left Turn in Education was founded as a response to observing a Neo-Marxist and Neo-Racist ideology, focused on race warfare, unfolding in our K-12 schools under the guise of Diversity, Equity, and Inclusion, Social Emotional Learning, Culturally Responsive Teaching, and Comprehensive Sexuality Education.

### **What can we do?**

1. Join our movement and start chapters in your locality. 2. Promote No Left Turn in Education's platform in School Board and Boards of Supervisors Meetings. 3. Ask your state legislators to sponsor the No Left Turn in Education Model Legislation. 4. Report incidents of Indoctrination in your schools on our website 5. Educate, Engage, and Empower your community about the threats to our freedoms from this Neo-Marxist, Neo-Racist movement.

### **What is Critical Race Theory (CRT)**

Critical Race Theory (CRT) is a neo-Marxist-type ideology that replaces the Marxist idea of class conflict between capitalists and workers with the idea of racial conflict. It is a distinctively American invention developed in academia and has no scientific validation. This racist, discriminatory, divisive, and self-flagellating ideology is metastasizing throughout America's corporations, medical facilities, the military, educational institutions, and most disturbingly, in our K-12 schools. Some of the central tenets of CRT include:

1. A person is judged by the color of their skin not their character (a reversal of MLK Jr.'s philosophy).
2. A person's identity is based primarily on the color of one's skin.
3. Society is divided into a race of permanent oppressors (white people) and races who are oppressed (people of color). Asians, White Hispanics, and Jews are labeled "white adjacent."
4. All white people, and only white people, are intrinsically and permanently racist.
5. The regime of white supremacy and privilege is maintained despite the rule of law and the constitutional guarantee of equal protection under the law.
6. White people judge non-whites consciously or unconsciously (implicit bias) by the color of their skin,
7. Any criticism of CRT or denial of racism is proof of racism.
8. People of color cannot be racist.
9. The United States is an inherently and fundamentally racist society, steeped in white supremacy culture.
10. The United States is illegitimate because it was founded on slavery, murder, and racist principles. Hence, the United States is systemically and irredeemably racist.
11. Capitalism, white supremacy, and patriarchy are systems of domination resulting in structural inequality. These systems provide unearned privileges to whites at the expense of people of color.
12. Only those in the oppressed groups can define what is racist.
13. Intersectionality is a derivative of CRT, emphasizing multiple overlapping sources of oppression, such as race, ethnicity, sex, sexual orientation, gender, class, and disability.
